Number Bond Awards

- Blue** To know all addition facts to 20 ($15 + 5 = 20$)
- Yellow** To know all subtraction facts to 20 ($20 - 4 = 16$)
- Red** To know all pairs of multiples of 5 and 10 which total 100 ($45 + 55 = 100$) ($75 + 25 = 100$)

Tables Awards

- Blue** Say the multiplication table in order without long pauses
- Yellow** Give the answer (product) of two multiplied numbers not in the order of the table eg. "five times two is..."
- Red** Say the two numbers (factors) which multiply together when given the answer (product) eg. "thirty is three times ten" or answer questions such as "how many tens in thirty?"

Product = the answer to a multiplication $6 \times 5 = \underline{30}$

Factor = the numbers which are multiplied together to make the answer
 $\underline{6} \times \underline{5} = 30$
