

Nursery Parent/Carer Questionnaire – March 2022

Questionnaire Statement	Parent/Carer comments	School Response
<p>How well has your child settled into Nursery education? (1 poorly, 5 highly successfully)</p>	<p>Average score – 4.90 / 5</p>	<p>We are very pleased to see such a high rating here for how well parents and carers feel their children have settled into Nursery education at All Saints' School.</p> <p>Our door is always open should you wish to discuss any aspect of school life to help your child to continue to settle well into school.</p> <p>As the Coronavirus situation continues to improve, we will be able to carry out further transition activities to support pupils into their next phase of school life.</p>
<p>What has worked well for your child since starting at school?</p>	<p>Familiar faces</p> <p>I feel routine of coming to school every day has made a huge difference. XXXX likes the routine and loves the interaction with her friends everyday.</p> <p>He has settled in so well to Nursery. He says he doesn't like going but I can tell by the pictures that he loves it. The routine works well and there are so many activities for them. He needs the stimulation.</p> <p>XXXX absolutely loves coming to school. She has amazing teachers and friends and has settled in very well. We are very pleased with the school.</p> <p>She can't wait to come to school every day and she is enjoying learning new things and playing with her new friends.</p>	<p>We are delighted to see how many things our parents and carers feel have worked well for their children since starting at Nursery.</p> <p>We are pleased that the routine and range of experiences provided for the children has been received so well.</p> <p>Over this school year, we have been keen to develop outdoor learning and are pleased to see the positive feedback regarding Forest School Friday for our Nursery pupils.</p>

Nursery Parent/Carer Questionnaire – March 2022

	<p>XXXX loves being outside, she went to the homestead nursery and was very much outside in all weathers so the fact you do forest school and have a lovely outdoor space is great.</p> <p>Being able to walk to school and have plenty of outdoor fun in the play area and forest school.</p> <p>I feel XXXX is supported and encouraged fantastically by Miss Williams and Mrs Emberry. She loves every minute of school and know this is the reason why. I think the posts on the dojo are incredibly helpful as we can see what/how she's doing and then we're able to praise/discuss her day with her which she enjoys too.</p> <p>The ability to listen to others around her.</p> <p>Routine of the school day and all the varied and fun activities that the school offer during the week.</p> <p>Her teachers being friendly.</p>	
<p>What developments and improvements would you like to see in the outdoor spaces?</p>	<p>I think the outside space is great. Maybe come summer some more opportunity to play on the grass.</p> <p>What I have seen, I can't think of any improvements as such as XXXX really enjoys being outside and I'm sure as the warmer months approach they will be outside a lot more. I'm not sure if you have any</p>	<p>We have recently purchased new sand, water and mud kitchen equipment for Nursery and this will be installed imminently.</p> <p>In addition, a large sheltered outdoor classroom will also be installed in the coming weeks to develop the outdoor area further.</p>

Nursery Parent/Carer Questionnaire – March 2022

	<p>fruit trees in the Forest school area, but that is a lovely addition as then the pupils can enjoy their home grown fruit.</p> <p>Maybe a shelter so they can still play out if its not so good weather and also for shade in the summer. I do find the drop off would be easier for me if both boys were going in to the same place but I appreciate that is circumstantial.</p> <p>I have no changes that I would make from what I have seen.</p> <p>Possibly a mud kitchen?</p> <p>I'm not really sure what equipment they have (such as bikes and scooters) I think they would be useful to learn about road safety and encourage healthy outdoor play.</p> <p>I think the sheltered area (where the bins are stored by the Clappers' Lane entrance) could be improved/utilised better as it is looking quite run down. Some of the nursery children like playing there when waiting for their older siblings to come out and it does have parts that look sharp and a bit dangerous.</p> <p>I think the sheltered area (where the bins are stored by the Clappers Lane entrance) could be improved/utilised better as it is looking quite run down. Some of the nursery children like playing</p>	<p>We have exciting plans for the area next to the Bin Store and will be developing a new outdoor reading and learning area in this space, please keep an eye on this over the coming months to see this exciting transformation!</p>
--	--	---

Nursery Parent/Carer Questionnaire – March 2022

	<p>there when waiting for their older siblings to come out and it does have parts that look sharp and a bit dangerous.</p> <p>Room for the kids to keep their scooter/bikes as they enjoy riding them to school.</p> <p>Gardening possibilities for children and more outdoor lessons.</p>	
<p>What developments and improvements would you like to see inside the classroom?</p>	<p>Again I think the classroom is great!</p> <p>Again, there isn't anything I can really think of for improvement. XXXX seems to love all activities set. She comes home with lots of things to chat about.</p> <p>I think everything I have seen indoors works well, he enjoys all aspects.</p> <p>Again there is nothing that I would currently change. XXXX is learning so many new things and is enjoying it while she learns.</p> <p>Hard to say as I have only been in the school once when Mr Hatwood kindly showed us around, I was very happy with the space that I saw and I know XXXX loves her class.</p> <p>XXXX loves the classroom as it is. She loves the little den and the big screen.</p> <p>Nothing, I think the space is fantastic</p>	<p>We are very pleased and proud of the nursery classroom and the resources and facilities it contains.</p> <p>As the next financial year progresses, we will be further enhancing access to technology in Nursery, including use of 'BeeBots' and other programming devices to compliment the learning that takes place.</p>

Nursery Parent/Carer Questionnaire – March 2022

	<p>Happy with the level of development within the classroom</p> <p>More access to technology. More focus off core curriculum so things like life skills, emotions and children learning on how to cope with life challenges.</p>	
<p>Any other comments?</p>	<p>I think the nursery at the school is a great learning environment for the children, the teachers are wonderful and there are fantastic resources that the children have access to. I am so pleased we chose this school for our children.</p> <p>I think the nursery at the school is a great learning environment for the children, the teachers are wonderful and there are fantastic resources that the children have access to. I am so pleased we chose this school for our children.</p> <p>XXXX is really enjoying her time at the nursery. She's looks forward to going to school everyday.</p> <p>Fantastic nursery provision. Thank you all teachers and staff that have made nursery a lovely experience for my child 😊</p>	<p>We would like to thank you for these lovely comments and are again so pleased to see how well you feel your children have settled into life at school.</p> <p>We look forward to continuing this positive relationship with you as parents and carers as your child moves up through the school.</p>
